Child sex ratio

1890. DR. GYAN PRAKASH PILANIA: Will the Minister of HEALTH AND FAMILY WELFARE be pleased to state:

(a) the child sex ratio in the country, as reflected in 1971,1981,1991 and 2001 Census, State-wise and whether it is declining;

(b) the steps taken by Government to bring equilibrium in the child sex ratio in the country ; and

(c) how does child sex ratio of India, compare with our neighbouring / South-East Asian countries?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (SHRIMATI PANABAKA LAKSHMI): (a) The child sex-ratio has declined over the years from 964 in 1971 to 927 as per 2001 census. The State-wise child sex-ratio is enclosed as Statement (*See* below).

(b) Under Pre-Conception & Pre-Natal Diagnostic Techniques (PC & PNDT) Act 1994, Central Supervisory Board headed by the Union Minister of Health and Family Welfare, reviews the implementation of the Act in the country.

State Level Supervisory Boards under the Chairmanship of Health and Family Welfare Ministers of the concerned State/UT reviews and monitors, the implementation of the Act in State/Uts.

District Appropriate Authorities and District Advisory Committees monitor the implementation of the Act at district level.

Ministry of Health and Family Welfare has undertaken training of trainers from State Judicial Academies to train lower judiciary.

National Inspection and Monitoring Committee has been reconstituted in March, 2005 which undertakes periodical visits to the States / district to see implementation of the Act.

A National Support and Monitoring Cell for strengthening the capacity of the Appropriate Authorities is being set up.

Besides, a number of activities to create awareness on the issue are being undertaken. The initiative include meetings/workshops with the organizations working against sex selection, involvement of the medical

professionals, religious/spiritual leaders to spread the message, requesting police training academies and schools to include the issues in curriculum of their training, telecasting of video spots on private satellite channels and Doordarshan, and involvement of elected representatives etc.

(c) As per the information available from United Nations for the year 2000, the child sex ratio in the age group of 0-4 years for China is 898 girls per thousand boys and for South-East Asia, it is 963. In case of India the same is 934 as per 2001 census.

Statement

Sex Ratio of Child Population in the ago group 0-6 : 1971-2001
